Hampshire

At Newmedica, we have some of the UK's leading consultant ophthalmologists who specialise in the treatment of advanced eye conditions. Our surgical centres are owned and led by the consultants, who hand pick their teams to ensure the right care is provided.

How to refer to us

For NHS referrals in Portsmouth, Southampton, Mid-Hampshire, West Hampshire and Isle of Wight:

Opticians

For cataracts: Email referrals to hiow@spoa.uk using NHS email or secure email (Egress). If your patient has chosen Newmedica as their care provider, when they receive the call from Ufonia they can interrupt to state their choice as Newmedica. Alternatively, they can stay on the call for Newmedica to be given as a choice.

For all other services: Refer directly by emailing newmedica.referrals@nhs.net

GPs

We're listed as NEWMEDICA HAMPSHIRE on the [NHS e-referral service](#)

Private patients

Email us at newmedica.referrals@nhs.net – please include referral form/letter and GOS form.

Services we offer

We offer NHS and private services.

- Cataract surgery
- Glaucoma
- Oculoplastic
- VR surgery (private only)
- YAG laser capsulotomy
- Wet AMD
- Oculoplastic

Why choose Newmedica?

Better clinical outcomes

Surgical complication rates are significantly below the norm, with posterior capsular rupture (PCR) at 0.31% compared to the national benchmark of 1.1%, so you can rest assured your patients will receive the best care.

Higher quality intraocular lenses

We are one of the only providers using the highest-quality monofocal intraocular lenses for NHS patients, with the lowest posterior capsule opacification (PCO) rate on the market. That means less YAG laser capsulotomy, fewer patients going through the worry of avoidable treatment, and savings for the NHS.

Short waiting times

Our short waiting times mean your patients will have their first appointment within a couple of weeks.

Why choose Newmedica?

Broader ophthalmology services to meet more of your patients' needs

Our consultant ophthalmologists specialise in treating a wide range of eye conditions for the NHS and privately, including glaucoma, YAG and VR. That means the same familiar faces for you and your patients, and it often means more complex patients can also benefit from our services.

Continuity of care delivering 99% satisfaction

Our consultant ophthalmologists and their experienced teams are a consistent presence

in our surgical centres so you, and your patients, get to know the team they can trust. Why choose Newmedica?

Free transport and reassurance when it's needed most

We take the time to get to know your patients, offer to hold their hand or play their preferred music in theatre, and provide free transport for those who need it.

Our consultants

Aby Jacob

I specialise in augmented trabeculectomy, deep sclerectomy, drainage implant surgery, and combined procedures.
