Bracknell

At Newmedica, we have some of the UK's leading consultant ophthalmologists who specialise in the treatment of advanced eye conditions. Our surgical centres are owned and led by the consultants, who hand pick their teams to ensure the right care is provided.

How to refer to us

Referral via opticians

- Email us at newmedica.referrals@nhs.net
- For opticians whose patients have a GP in Frimley ICB, our preferred referral route is via Evolutio. Please state the patient has chosen Newmedica Bracknell.

Referral via GP

We're listed as NEWMEDICA BERKSHIRE on the NHS e-referral service.

Private patients

Email us at newmedica.berkshire@nhs.net – please include referral form/letter and GOS form.

✓ Services we offer

We offer NHS and private services.

- Pre and post-assessment to be completed at Bracknell. Surgery to be completed at our surgical centre in Slough.

Why choose Newmedica?

Better clinical outcomes

Surgical complication rates are significantly below the norm, with posterior capsular rupture (PCR) at 0.31% compared to the national benchmark of 1.1%, so you can rest assured your patients will receive the best care.

Higher quality intraocular lenses

We are one of the only providers using the highest-quality monofocal intraocular lenses for NHS patients, with the lowest posterior capsule opacification (PCO) rate on the market. That means less YAG laser capsulotomy, fewer patients going through the worry of avoidable treatment, and savings for the NHS.

Short waiting times

Our short waiting times mean your patients will have their first appointment within a couple of weeks.

Broader ophthalmology services to meet more of your patients' needs

Our consultant ophthalmologists specialise in treating a wide range of eye conditions for the NHS and privately, including glaucoma, YAG and VR. That means the same familiar faces for you and your patients, and it often means more complex patients can also benefit from our services.

Continuity of care delivering 99% satisfaction

Our consultant ophthalmologists and their experienced teams are a consistent presence in our surgical centres so you, and your patients, get to know the team they can trust.

Why choose Newmedica?

Free transport and reassurance when it's needed most

We take the time to get to know your patients, offer to hold their hand or play their preferred music in theatre, and provide free transport for those who need it.

State-of-the-art facilities

Our surgical centres provide the best care for your patients. As well as the latest equipment, they include free parking and comfortable waiting areas to make visiting as easy as possible.

Partnering with you in patient care

We know we deliver the best patient care when working closely with you. That's why our consultants provide feedback on your referrals, answer any questions you have and support your progression through CPD events, pre-reg and IP placements.

Our consultants

Reena Dave

I specialise in adult cataract surgery and minor oculoplastic procedures.

Richard Lee

I specialise in adult glaucoma management, with extensive expertise in medical, laser and surgical treatments.

Pallavi Tyagi

I specialise in complex cataracts, medical retina diseases, and vitreoretinal surgery.
