Gloucestershire

At Newmedica, we have some of the UK's leading consultant ophthalmologists who specialise in the treatment of advanced eye conditions. Our surgical centres are owned and led by the consultants, who hand pick their teams to ensure the right care is provided.

How to refer to us

Opticians

Gloucestershire: Refer via Opera or email newmedica.referrals@nhs.net

Hereford & Worcester: Refer via Cinapsis. If you are not signed up to Cinapsis please email us at newmedica.referrals@nhs.net

GPs

We're listed as NEWMEDICA – GLOUCESTER on the [NHS e-referral system](#).

Private patients

Email us at newmedica.gloucesterprivateservice@nhs.net

✓ Services we offer

We offer NHS and private services.

- Cataract pre- and post-operative assessment
- Cataract surgery
- General ophthalmology
- Glaucoma treatment and monitoring
- Medical retina
- Oculoplastics (subject to INNF approval)
- Pterygium surgery
- Wet AMD (private only)

- YAG laser capsulotomy
- YAG laser peripheral iridotomy
- YAG selective laser trabeculoplasty

Why choose Newmedica?

Better clinical outcomes

Surgical complication rates are significantly below the norm, with posterior capsular rupture (PCR) at 0.31% compared to the national benchmark of 1.1%, so you can rest assured your patients will receive the best care.

Higher quality intraocular lenses

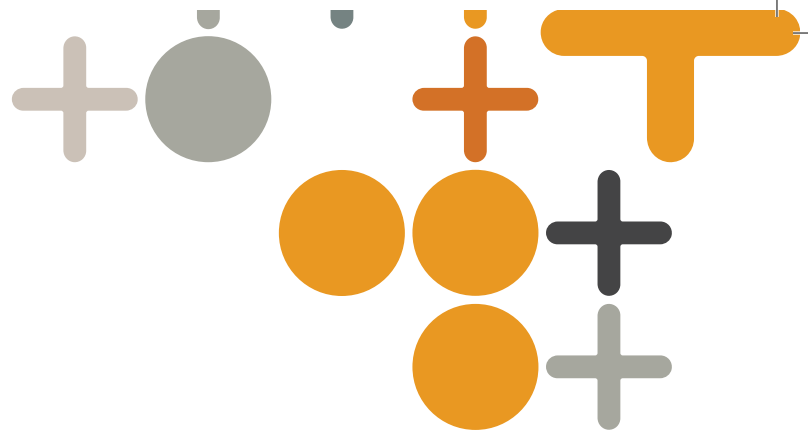

We are one of the only providers using the highest-quality monofocal intraocular lenses for NHS patients, with the lowest posterior capsule opacification (PCO) rate on the market. That means less YAG laser capsulotomy, fewer patients going through the worry of avoidable treatment, and savings for the NHS.

Short waiting times

Our short waiting times mean your patients will have their first appointment within a couple of weeks.

Broader ophthalmology services to meet more of your patients' needs

Our consultant ophthalmologists specialise in treating a wide range of eye conditions for the NHS and privately, including glaucoma, YAG and VR. That means the same familiar faces for you and your patients, and it often means more complex patients can also benefit from our services.

Why choose Newmedica?

Continuity of care delivering 99% satisfaction

Our consultant ophthalmologists and their experienced teams are a consistent presence in our surgical centres so you, and your patients, get to know the team they can trust.

Free transport and reassurance when it's needed most

We take the time to get to know your patients, offer to hold their hand or play their preferred music in theatre, and provide free transport for those who need it.

Partnering with you in patient care

We know we deliver the best patient care when working closely with you. That's why our consultants provide feedback on your referrals, answer any questions you have and support your progression through CPD events, pre-reg and IP placements.

Our consultants
