Norwich

At Newmedica, we have some of the UK's leading consultant ophthalmologists who specialise in the treatment of advanced eye conditions. Our surgical centres are owned and led by the consultants, who hand pick their teams to ensure the right care is provided.

How to refer to us

Opticians - Norwich, North and South Norfolk
Cataract - email West Norfolk Referral Support Service (WNRSS) at nwicb.cataract@nhs.net
Glaucoma, YAG and oculoplastic - email us at newmedica.referrals@nhs.net

Opticians - West Norfolk
Email WNRSS at nwicb.wnophthalmology@nhs.net

Opticians - Great Yarmouth and Waveney
Email us at newmedica.referrals@nhs.net

GPs
We're listed as NEWMEDICA NORWICH on the NHS e-referral service.

Private patients
Email us at newmedica.norwich@nhs.net - include referral form/letter and GOS form.

Services we offer

We offer NHS and private services.

- Cataract surgery
- Glaucoma
- Oculoplastics
- Wet AMD (private)
- YAG laser

Why choose Newmedica?

Better clinical outcomes
Surgical complication rates are significantly below the norm, with posterior capsular rupture (PCR) at 0.31% compared to the national benchmark of 1.1%, so you can rest assured your patients will receive the best care.

Higher quality intraocular lenses
We are one of the only providers using the highest-quality monofocal intraocular lenses for NHS patients, with the lowest posterior capsule opacification (PCO) rate on the market. That means less YAG laser capsulotomy, fewer patients going through the worry of avoidable treatment, and savings for the NHS.

Short waiting times
Our short waiting times mean your patients will have their first appointment within a couple of weeks.

Broader ophthalmology services to meet more of your patients' needs
Our consultant ophthalmologists specialise in treating a wide range of eye conditions for the NHS and privately, including glaucoma and wet AMD. That means the same familiar faces for you and your patients, and it often means more complex patients can also benefit from our services.

Continuity of care delivering 99% satisfaction
Our consultant ophthalmologists and their experienced teams are a consistent presence in our surgical centres so you, and your patients, get to know the team they can trust.

Why choose Newmedica?

Free transport and reassurance when it's needed most
We take the time to get to know your patients, offer to hold their hand or play their preferred music in theatre, and provide free transport for those who need it.

State-of-the-art facilities
Our surgical centres provide the best care for your patients. As well as the latest equipment, they include free parking and comfortable waiting areas to make visiting as easy as possible.

Partnering with you in patient care
We know we deliver the best patient care when working closely with you. That's why our consultants provide feedback on your referrals, answer any questions you have and support your progression through CPD events, pre-reg and IP placements.

Our consultants

Anas Injarie
I specialise in cataract surgery, paediatric ophthalmology, age-related macular degeneration (AMD), and more.
