Why get a private eye treatment with Newmedica?

- Appointment times that suit your patient's schedule.
- Dedicated care team throughout your patient's care - including a patient coordinator and choice of consultant ophthalmologist.
- Comprehensive aftercare following surgery - your patient will benefit from a comprehensive aftercare programme that's completely tailored to them.
- Cataract patients can choose from a range of high-quality lenses that can improve near, intermediate and distance vision, including toric lenses designed specifically to correct astigmatism.

How to refer to us

Send your patient information and details of referral to:
newmedica.derby@nhs.net

We're making private treatment more accessible

- Spread the cost with interest-free payments* for self-pay patients
 - Discounts available on selected private treatments
- We accept private medical insurance. We're accredited by Bupa, AXA Health, Aviva, Vitality, WPA and Healix Health.

*Terms and conditions apply. Visit **newmedica.co.uk** to find out more.
